Discussion

Our Points:

This time we should the project with few functionality initially required by the customer.

We showed them the Design of the project its Login page with booking working at that time.

Customer Reply:

They were satisfied with work which had been done till the date.

Customer's additional Requirement:

They were also interested in addition of cancellation option which will help to cancel the cab after booking.

Remark: We agreed to add the cancel option as per the requirement of the customer.

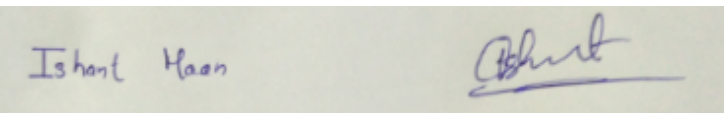

Further the next meeting was decided to meet after the completion of the project.
