

## **ONLINE CAB BOOKING SYSTEM**

**Prateek Mishra, Mihir Garg, Shubham Singh, Vishal Yadav,  
Rohan Srivastava**

By controlling data redundancy. We greatly reduce the opportunities for inconsistency. In database approach updating data values is greatly simplified when each value is stored in one place only. Finally, we avoid the wastage storage space that results from redundant data storage.

Creating a form, adding controls to form and writing code behind the form are all managed within a friendly environment.
